**Our Mission Statement**

To design, develop and manufacture a range of products to respond to the market demands, optimising supply chain dynamics to deliver a quality effective solution to meet customer expectations.

Silverline have manufactured and supplied steel storage for over 30 years, in this time the company have gone from strength to strength. Staking its claim amongst the elite; Silverline are passionate about manufacturing a highly versatile range of products to fulfil needs in all market levels.

Creating adaptable, sensible and secure products for every kind of working situation we design and specify with a view of the future in mind. All this has gained us a reputation for dependability and value.

Silverline's product portfolio can be viewed at the Showroom in the heart of Clerkenwell, the undisputed heart of design in London.

# A NOTE ABOUT ORDERING

When ordering, make sure that the correct codes are used. Our codes comprise of three parts which describe every aspect of the product that is being ordered and ensures that it is correctly identified on our computer system.

1. Select a product to be ordered from the lists on pages 3-17. Make a note of the 6 digit cat No. For Example, if a m:line 4 drawer filing cabinet, (Foolscap), was being ordered the Cat No. is FCLM4F.
2. Examine the options relevant to each section and select any variation from the standard model that might be required. Note down the two digit option code. For standard models always use SD. For example, if the m:line filing cabinet required a security bar, SB would be added.
3. Now examine the colour matrix on page 18 and select the required colour. Note there is an extra charge for some colours. Make a note of the three digit colour code at the top of the chart. For example, if the colour required was Graphite Grey, RAL7024, the code would be 012.

Following the example above, would give us the code shown below.

This system is designed to make placing an order as simple as possible. The codes give exact details about the product being purchased so you know exactly what has been ordered and our Sales Team are able to process your order accurately and quickly.

Note: Remember to specify your Tambour Blind when ordering a m:line or Freedom Side Tambour.

Some of the information in this brochure may be incorrect due to product / information changes which may have occurred since it was printed. Before ordering, please ask our Sales Team for the latest information.

The company reserves the right to make changes at any time, without notice, to prices, colour, materials, specification and models. Please Note; All weights are for guideline purposes only.

Where product weights are a specific requirement please contact our sales office for technical data.
